Cold Foil

Mirror-bright metallic shine that makes your logo glow under shelf lights. Large-area coverage at a fraction of hot-stamp cost.

Holographic

Rainbow light effects that stop shoppers mid-aisle. Color shifts with viewing angle for unmissable premium feel.

Gold Stamping

The classic luxury cue. Rich gold and silver foil with razor-sharp detail that makes unboxing feel expensive.

UV Coating

Spot gloss that makes key design elements pop against matte backgrounds. Adds depth exactly where you want the eye to go.

Embossing / Debossing

Texture you can feel. Raised or recessed patterns signal craftsmanship and justify premium pricing.

Multi-Process Layering

Foil over UV, emboss over holographic - combined in a single run. Effects competitors cannot easily copy.

Factory Capabilities

Daily capacity	40,000 rigid boxes
Sampling	5 days, artwork to sample
Trial order	From 100 pcs (credited on bulk)
